"TENT CITY" (From MacLean's, September 15, 1938) "A single day in Little Lake Camp shows up the basic reason for its extraordinary pupularity as obviously as Cyrano de Bergerac's nose. The site is ideal ... waterfront perfectly suited to meet the requirements of luxurious camping ... lighted at night as efficiently as any city ... two garbage collections daily, and ice delivered twice daily as well ... spotless cleanliness characterizes the Camp ... Little Lake Camp has never had a drowning or serious accident ... the name is a libel to the Lake which is two miles long and a mile broad at its widest ... each summer Little Lake Camp entertains a wide variety Little Lake Camp entertains a wide variety of tourists from all walks of life and points of the compass."

TO OUR VISITORS

The Province of Quebec Tourist Cabin Owners' Association was formed to enable the proprietors of Tourist Camps in the Province of Quebec to exchange ideas towards the

improvement of the service they render to the travelling public, and to co-operate in the promotion of their various interests.

Our Provincial Governmental Authorities have set a standard of service for our Tourist Camps whereby each cabin must be heated; have running water and inside flush toilets; a proper drainage system, and also other features to assure your comfort and security.

It is our endeavour to render you "a good hotel service under Camp conditions". Should you not be pleased with the accommodation offered, or the service rendered at any of these places, please be kind enough to give us the details so we may in a friendly way advise the interested proprietor. Thank you.
